Clear Acrylic Sheet

Acrylic also known as polymethyl methacrylate (PMMA) is a clear engineering thermoplastic which is often used as a glass substitute. This type of plastic is more flexible, lighter and stronger than glass with higher impact strength. It is also safer as it does not shatter into small pieces like glass. Acrylic plastic sheeting is also easy to work with and can be curved and formed into a variety of shapes and configurations using laser cutting and machining.

SKU: **MCH1348**

Specification:

- Color: Clear.
- Area Size: 200 x 250 mm.
- Thickness: 2~6mm.
- Material: Extruded Acrylic.
- Density: 1.25g/cm³.
- Tensile Strength: 65MPa.

Applications for Acrylic Sheet:

- Electronics Industry.
- Exhibition and trade show services.
- Food processing and handling.
- Framing and mounting.
- Plastic and metal fabrication.
- Signage.

Ordering Information:

SKU	Thickness (mm)	Area WxL (mm)
	2	200X250
	3	200X250
MCH1348	4	200X250
MCH1363	5	200X250
MCH1349	6	200X250

HandsOn Technology provides a multimedia and interactive platform for everyone interested in electronics. From beginner to diehard, from student to lecturer. Information, education, inspiration and entertainment. Analog and digital, practical and theoretical; software and hardware.

HandsOn Technology support Open Source Hardware (OSHW) Development Platform.

The Face behind our product quality…

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell wihtout checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
