Mylar Heat Resistant/High Temperature Insulation Tape

This Mylar (polyester) Heat Resistant, Flame Retardant and High Temperature Insulation Self Adhesive Tape is a high quality product that is ideal for a wide variety of applications and projects. Widely use in electronics industry, insulating pack for transformers, motors, coil capacitor and switching power supply.

SKU: ASS1001

Brief Data:

- Color: Yellow.
- Adhesive: Acrylic.
- Base Material: Polyester.
- Temperature Withstanding: 130°C ~ 160°C.
- Flame Resistance: Yes.
- Length: 66 Meters.
- Width: 25~40mm.
- Base Thickness: 0.03mm.
- Total Thickness: 0.06mm.
- Voltage withstanding: 4.0KV.

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sold on Handsontec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
