

Rosin Core Soldering Wire

Good quality rosin core low temperature soldering wires. Good solderability, no spattering and non-corrosive. With a low melting point, widely used in electrical and electronics, solder parts like circuit board, electronics devices and others.

SKU: [ASS1158](#)

Brief Data:

- Model: HX-HT100.
- Tin (Sn): 63%.
- Lead (Pb): 37%.
- 63/37 rosin core soldering wire.
- Wire Diameter: Ø0.6mm.
- Weight: 100g/roll.
- Rosin Core: 1~3% Flux.
- Melting Point: 183°C.

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
