

2-Core Insulated Multi Strand Cable

This flexible power cable consists of cores made up of fine IEC 60227 15 stranded copper conductors or wires. Each individual core is surrounded by color red and black strip coded PVC (Polyvinyl Chloride) insulation for easy identification of the wires. Suitable for general purpose power supply cabling.

SKU: CON1147

Brief Data:

- 2 Core Power Cable.
- Rated Voltage: 300V.
- Rated Current: 5A.
- Conductor Cross Area: 0.50mm².
- Outer Diameter: Ø4.7mm/core with insulator.
- Insulator Color: Red & Black Strip.
- Construction: 2 Parallel Peelable.
- Conductor Strand Type: 15x Strand.
- Insulation Material: PVC.

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sold on Handsontec is fully tested. So when buying from Handsontec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
