

Button Head Cap Screws Stainless Steel

Button Head Socket Screws are designed for light duty. They have a similar thread design as a Socket Cap Screw although the dome shaped head is wider and has a lower profile than a Socket Cap Screw, presenting an aesthetic appearance to an assembly. These fasteners are ideal when a wider bearing surface is required.

SKU: [FAS1082](#)

Brief Data:

- 304 Stainless Steel.
- Threaded in accordance with ISO 7380 standard.
- Used in applications where a wider head and lower profile is required.
- Suitable for light fastening applications.
- Typical applications include; machine tooling, security guarding and many internal joinery applications.
- Requires a Hex Key/Allen Key.

The Face behind our product quality...

In a world of constant change and continuous technological development, a new or replacement product is never far away – and they all need to be tested.

Many vendors simply import and sell without checks and this cannot be the ultimate interests of anyone, particularly the customer. Every part sell on Handsotec is fully tested. So when buying from Handsotec products range, you can be confident you're getting outstanding quality and value.

We keep adding the new parts so that you can get rolling on your next project.
